

All Aboard the Number Train

Math Fun for Preschoolers

A Training Opportunity

Opportunities for exposing children to beginning number concepts are everywhere. From our homes to the grocery store, there are objects to count, measure, estimate and divide. Parents & caregivers can help make math fun with simple games, rhymes & stories. This program will focus on some very basic math outcomes that will prepare preschoolers for Kindergarten and the concepts that follow! Spend the morning with Shauna Hewitt, the creator of the program, and become a trained facilitator!

Friday, September 7th, 2018

1pm -3pm

Jake Epp Library, 255 Elmdale Street, Steinbach

This workshop focuses on parent/child programs, but is open to all that work with children 0-6 years old and families in the South East region.

It is a free workshop, but you must register to attend. Space is limited.

Registration deadline is September 4th, 2018.

To register, contact Andrea @ 204- 346-6698 or email

aklassen@southernhealth.ca

When registering, please give the names of those registering, a contact email and phone number, and the name of your organization.
