

TODDLER SHENANIGANS!

A Training opportunity

Children are pre-programmed to explore the world around them. Toddler Shenanigans provides little ones with the chance to explore and experience the world through messy play. Messy play allows children to use and develop their five senses, and to further develop their natural inquiry skills. There are no rules, and guidelines, allowing more freedom to explore. This workshop will give you tips, ideas and activities to add to your program
